

Elemental Wastes

Area [The Surface](#)

A dangerous area, where magic runs wild and constantly transforms the land.

A dangerous area, where magic runs wild and constantly transforms the land.

Background

The Elemental Wastes is one of the more dangerous regions. During the [Prime Quest](#), a battle happened in this region that made the magic run wild, seemingly forever. All attempts to quell the magic has been in vain and instead it is now being harvested for the unique goods that can only be found here. The most prominent goods are the flystones, big rocks that caused the [Skylands](#) to exist.
