Kalzendil is located on a hill at the geographical center of the world. It is ruled over by a sage that is said to be a descendant of [The Princess](#).

## Background

Stormwind is a gleaming capital of stone and light. Its massive light grey walls rise in tiers, each crowned with blue-roofed towers and fluttering banners that ripple in the winds coming in from the [Aestilon Fields](#). Within those walls, cobbled streets wind upward toward the heart of the city — a citadel of marble and gold where the princess governs, and where sunlight spills through stained glass onto polished floors.

The [Order of the Sages](#) and [Triumvirate](#) both have powerful showings here, constantly competing over control of the day to day of the city.
