

Greul Clan

Leader
City

Background

The Greul Clan is one of the great houses of [Rudiana](#), and among those that rose to prominence in the long shadow left by the disappearance of the [Zamak Clan](#). Known for ambition, force of will, and a relationship to power that many find unsettling, the Greul have become one of the houses most often spoken of in the same breath as danger, secrecy, and forbidden hunger.

Though their exact history remains obscured in places, one fact is increasingly difficult to ignore: the Greul Clan has a deep and ongoing interest in the lost legacy of the Zamak. Above all else, they are believed to seek access to the sealed [Soul Forge](#).

Reputation

Among the clans and common people alike, the Greul are remembered less for beauty of craft than for the intensity of their ambition. Their name does not carry the admired romance once attached to the Zamak, nor the respectable steadiness of more civic-minded houses. Instead, it tends to gather whispers.

They are associated with old grudges, dangerous secrecy, and the sort of hidden dealings that make other powers watch them without admitting that they do. Whether every fear surrounding them is deserved is another question. That fear exists is not.

Goals

* Gain access to the [Soul Forge](#). * Increase the clan's influence within [Rudiana](#). * Recover or control legacies that should have remained buried.
